

APPLICATION FOR PERMIT

Serial No. 3933

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office APR 25 1916
Returned to applicant for correction
Corrected application filed

The undersigned Albert T. Lay
Name of applicant.
of Sulphur, County of Humboldt,
State of Nevada, hereby make application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated. (If applicant is a corporation give date and
place of incorporation.)

1. The source of the proposed appropriation is Spring in Woody Canon and flow of Woody Canon.
Name of stream, lake, or other source.
2. The amount of water applied for is One second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for Irrigation and stock purposes.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
point: NW $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 27, T. 40 N.R. 31 E., M.D.M.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is One hundred
- (b) Description of land to be irrigated W $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 24, NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 25, T. 40 N.R. 30 E., M.D.M.
Describe by legal subdivision, or if on unsurveyed land it should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Irrigation will begin about March Month. and end about September Month., of each year.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is horse power.
- (e) Works to be located
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream
Describe in same manner as point of diversion.
- (g) Remarks

DESCRIPTION OF PROPOSED WORKS

Water to be conveyed from spring in Woody Canon by means of a ditch

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

to Jackson Creek, thence in Jackson Creek to NW $\frac{1}{4}$, SW $\frac{1}{4}$ Sec. 19, T. 40

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

N.R. 31 E., M.D.M. and thence conveyed by means of ditches to land to be irrigated.

5. Estimated cost of works \$200.00

6. Estimated time required to construct works 5 years.

7. Remarks Time required is for the purpose of preparing land for
For use of applicant.

irrigation.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed

1.0 cubic feet per second. (One)

Actual construction work shall begin on or before November 10th, 1917.

Proof of commencement of work shall be filed before December 10th, 1917.

Work must be prosecuted with reasonable diligence and be completed on or before November 10th, 1920.

Proof of completion of work shall be filed before December 10th, 1920. Application of water to beneficial use shall be made on or before November 10, 1922. Proof of the application of water to beneficial use must be filed with State Engineer on or before December 10, 1922.

Proof of labor filed DEC 10 1917 WITNESS MY HAND AND SEAL this 10th day

Map filed FEB 23 1918 of September, 1917.

Proof of completion of work filed OCT 11 1920

J.S. Schenck

State Engineer.

Withdrawn by applicant *May 14 1924*

Robert A. Allen

State Engineer.

This permit is issued subject to all prior rights on the source, and in conjunction with permits Nos. 3861 and 3752, all of which describe a portion of the same land. The full statutory amount of 1.0 cubic foot of water per second is herein allowed, notwithstanding the fact that a water right from Quinn River for a portion of the lands described in this permit has already been granted under permit No. 2347 and a full water right is also granted part of said lands from Jackson Creek under permit No. 3861 and from Mary Sloan Creek under permit No. 3752. In this manner, the full statutory amount of 1.0 cubic foot of water per second may be diverted and used in the event that no water whatever is available from any of the sources heretofore mentioned. However, the total amount of water granted from all of the sources described in these four permits must not exceed the statutory allowance for the maximum area of land therein described.

The applicant will be required, at the time of filing proof of beneficial use of water, to definitely segregate the areas of land irrigated from each of the sources described under permits Nos. 3861, 3752 and 3933, while the land in conflict eventually awarded a water right under permit No. 2347 will be deducted from any certificate eventually issued under said permits Nos. 3861, 3752 and 3933.

A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of the water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood
